

St. Joseph Catholic School
Mrs. Mohoney's Kindergarten
September 11, 2017

What an exciting week we had! It was so wonderful to spend time with our grandparents and special friends. What a special time to share our work and our classroom.

We met a new Superkid, Alf. Alf enjoys going on adventures and always have ants following him. We are working hard hearing all the sounds in a word. We have been busy popping our beginning sounds. We learned to be “final sound frogs” and hop for the last sound we hear in a word. We are working hard on hearing all the sounds in a word - stretching it out.

We found flat shapes all over our classroom. We shared the different characteristics of circles, triangles, and hexagons. We reviewed the differences in squares and rectangles. We are great shape detectives!

We continued to focus on God's gift of land. We loved learning about St. Rose of Lima. She used to land to grow a garden which she used to help her poor family and other poor people in her community. We thought the most interesting fact was that her name was Isabelle, but her family called her “Rose” because she is as pretty as a rose.

Reminders

*We are collecting items for the people affected by Hurricane Harvey in Texas. Items could be travel size personal care items, school supplies, etc.

*Remember to bring your library books back on Wednesdays for library

*Remember a healthy (that does not require a spoon), daily snack if you would like one
