Look What We're Studying...

Reading/Language Arts
Story - City Green
Strategy - Cause/Effect

Spelling - Spelling with syllables

SCIENCE - Lima bean plant observations in science journals.

Study of living things in Chapter 2.

SOCIAL STUDIES

Working with globes and geography

Where are we in the world?

Reminders

All year long, our class will focus on activities that will meet the goals that are contained in our School Improvement Plan. These include word study activities learning Greek and Latin root words, participating in weekly Sustained Silent Reading (which we call Drop Everything And Read time), a developing an appreciation for reading classic stories. We will be reading "Little House on the Prairie" by Laura Ingalls Wilder as our classic novel.

Superstars

I think that I can safely say that 3rd grade were superstars last Friday. I had to be gone to be at the hospital for my Mom's surgery, so I had a sub in my class. The sub left me a note about how she and the class had a "fun" day. Whenever a sub leaves a happy note like that, my class reached "superstar" status! Yah, 3rd Grade!!!!

Odds and Ends

RELIGION -

Jesus teaches us about his Father's love. Christ will come again.

HANDWRITING - We are starting to practice the capital letters in cursive writing. When a student needs a bit more practice on a certain letter, you may see that student bringing home practice for homework.

MISSION STATEMENT

Children following God in Faith, Respect, Knowledge, and Service.

Our class service project for anytime during the year is to be available, if your own work is done. to be a tutor to another classmate.
