

Miss Riecke

# Leap into Catholic Schools Week with us!

January 22, 2018

---

## Important information

I wanted to take the time and thank all of my parents and students for being so patient and working hard during E-learning. Thank you for being in communication with me. I hope the days were not too stressful for everyone. If you ever have any questions about E-learning throughout the day, do not hesitate to e-mail me.

The students have learned all of their multiplication and division facts. Please make sure you are practicing them at home, the students need to be fluent with them. The students enjoy playing the dice games that I have in my classroom.

We have an open house on January 28, 2018, to kick off our Catholic Schools Week. Catholic Schools Week will be January 29 through February 2, 2018. We have a lot of fun activities going on that week for the kids during school so make sure you check out what we have planned. Wednesday you will receive a paper with the list of activities that we have planned.

---

Attached to our newsletter you will see a permission slip. It is for our random act of kindness. We will be walking with the second-grade class to visit one of their pen pals, Mr. Mansfield. Attached to the permission slip you will see a little write up about what we will be doing.
