Classroom News

Dear Families,

Our Caterpillars have arrived! We look forward to watching them grow and change. This week in Math, we will begin learning about Geometry. In Language Arts, we will begin learning about words with the sounds: -oo as in book, and -oo as in spoon. We will also be writing about our caterpillars in our journals.

In Religion, we will continue learning about the institution of the Eucharist at the Last Supper. We will also be learning how to pray the Divine Mercy Chaplet. In Health, we will be talking about how to be good stewards of public places. In Social Studies, we will continue learning about changes in communities. In Science, we will continue our study of life cycles. This month, we will be learning about the virtue of **obedience**: saying "yes" to God and those who stand in his place.

Last week they really enjoyed: Learning about the Last Supper, our free Art time, and extra recess outside.

Reminders/Updates: *Thank you for sending in crackers!
*Please return library books each Wednesday.

***Mission Statement: Children following God in Faith, Respect, Knowledge, and Service.**
