

Notes from inside the TARDIS

October 5-8

Learning: This week in our curriculum we covered/are covering these topics:

Math: We have completed our chapter over equations and will be testing tomorrow.

Science: We are well on our way in learning about cells and the various parts of them. The students are really getting a lot out of this unit!

Religion: We will be taking our first unit test tomorrow, this will be a review over chapters 1-5.

Social Studies: have started learning about the Ancient Egyptians and what role they played in our modern day society. Our project is a 10 page power point slide show. This is a school and home project. If your student does not have access to a computer at home please let me know and we can make alternate arrangements.

Language Arts: We have finished the Tale of Despereaux. The students thoroughly enjoyed this book and have really gotten a lot out of it. We will have our final over the book tomorrow.

Grammar: We have started our review on verbs. So far we have reviewed verbs in general, direct and indirect objects, and verb tenses. We are also continuing our review on how to make strong paragraphs for our persuasive writings.
